

# Yank, Who Didn't Hear Retreat Order, Captures Hill Alone

WITH U. S. FIRST CAVALRY DIVISION, Korea, June 26—(AP)—This GI didn't hear the order to retreat, so-o-o-o-----

In a single-handed fight with Chinese Communists, he killed 14 Reds, captured five and secured the hill that had been the objective of his company.

The First Cavalry Division today told the story of Pvt. Leopold M. Carrillo, son of Mrs. Marino Carrillo, Los Angeles.

Carrillo was in a hill assault when his unit was caught in a fiery rain of grenades and automatic weapons. They were ordered to fall back.

But Carrillo, on a flank of the hill, didn't hear the command. He

advanced.

"I got all the way to the top before I found no one was with me," he said. "I was afraid of getting shot in the back if I turned around, so I kept on going."

He was carrying an M-1 rifle. Just as he reached the crest, a Chinese soldier jumped from a foxhole a few feet away.

Carrillo felled him with a single shot. Then the Californian moved across the ridge, clearing one Chinese position after another in spite of murderous fire from an enemy machinegun on another hill.

"I had only two rounds left when I ran into a Chinese soldier with a burp gun," said Carrillo.

He got the Red with his next-to-last bullet, picked up the dead Communist's automatic weapon and continued across the ridge.

Six more Chinese saw the advance of the one-man army and jumped from their holes to surrender.

But one changed his mind and started to run. Carrillo killed him.

WITH U. S. 25TH DIVISION, Korea, June 26—(AP)—A direct enemy hit set fire to a U. S. howitzer tractor loaded with 24 rounds of high explosive shells and 130 gallons of gasoline.

It was within easy range of at least 50 men of a field artillery battalion.

Sgt. Walter Frazier, East Brady, Pa., jumped into another tractor,

hooked on to the flaming vehicle and towed it a safe distance.

He dived back into his foxhole just as the first of the 155-millimeter shells on the burning tractor began to explode.

Not a man in the battalion was injured.

TOKYO, June 26—(AP)—Turks slipped through Chinese lines in Korea and seized a machinegun crew.

Sgt. Mehmed Vurma noticed one prisoner had a bugle. He ordered the Red to blow assembly.

Chinese popped out of foxholes.

Vurma and his Turkish squad rounded up 36 Reds.

## The Weather

Some cloudiness with scattered thunderstorms tonight. Lowest 64 to 68. Wednesday warm and humid with thundershowers.

## 18 B&O Cars Derailed Near Edgefield

A GENERAL VIEW OF THE DESTRUCTION caused when 18 gondola type cars of the B&O Railroad jumped the track Monday afternoon, is shown above. The wreck occurred about 14 miles northwest of Washington C. H. on the line to Dayton. (Record-Herald Photo)

## Four States Lashed by Storms

(By The Associated Press)

Tornadoes and windstorms struck damaging blows across four states yesterday. Crops, property and livestock losses were estimated at more than \$1,000,000.

Tornadoes hit in Iowa, Nebraska and Colorado and severe windstorms whipped southern Minnesota. At least five persons were injured.

## Meanderings

By Wash Fayette

Raymond Stephens, barber, magician and fireman in Washington C. H., felt lucky to be safe and alive after a harrowing experience on Indian Lake Sunday.

Stephens had the tables turned on him. He was without his bag of magic tricks and was the victim of the same close shave he gives dozens of customers every week. And there was plenty of water, but no fire to put out.

Here in brief was Stephens' story:

He and his wife decided to take a sight seeing cruise on the lake along with the child of a couple they knew.

The threesome set out with 30 other passengers in a small sightseeing cruiser—upper decks, chairs and a holiday atmosphere pervading throughout the boat.

A storm was threatening, and several other small boats turned back and headed for the beach, but the captain apparently didn't feel that there would be any danger to his boat. Not many minutes later the captain wished he had been a cautious mariner.

Some distance off shore the storm cut loose.

"There was rain, hail, waves, thunder, lightning and everything," Stephens recalled.

The little boat was buffeted around on the rolling waves, and the top ripped loose at the height of the storm. During all this excitement an elderly man rushed through the boat shouting: "The boat's sinking!"

Fortunately, the captain grabbed the little man by the scruff of the neck and told him to be quiet.

Meantime, women in the boat crowded to one side of it and threatened to capsize it. The few men on board tried to plead with the women and finally had to hold them down by physical means. Women tore their hair and screamed frantically. The windows on the boat fogged up and obscured vision. This added to the confusion.

Some of the women removed their shoes and prepared for the worst. Stephens, who has faced many emergencies as a fireman here and soldier during World War II, decided what he would do if the boat tipped over in the waves. He thought about clipping the small boy with him on the chin and hauling him to safety. Stephens' wife can swim.

Some 40 minutes later, the storm passed, and the captain headed his badly mauled little boat with its cargo of frightened passengers in to the shore.

There were hundreds of people on the beach, including the State Highway Patrol, to see how the boat fared in the storm. Needless to say, the ground felt good to "Steve" and his wife.

Two small communities in north central Iowa were hard hit by a tornado. The business district of Duncan, a town of 80 residents, was wrecked and more than half the homes were damaged. Damage was estimated at more than \$500,000. Three persons were hurt.

The twister moved across rural areas, killing livestock, and then struck Crystal Lake, a town of 301 population. Every building and home in the town was damaged.

Tornadoes also struck near Sidney, Neb., near the Colorado border, and in rural areas in eastern Colorado, near Holyoke. A destructive hail storm pounded Scottsbluff, Neb., for the second time in two days. Thunderstorms and

winds up to 80 miles an hour were reported in western Nebraska but there was no major damage.

Hundreds of head of small livestock and poultry were killed by the windstorms which swirled southern Minnesota from Fairmont to Winona. Power lines were snapped and crops flattened over a wide area. Early estimates placed the damage at hundreds of thousands of dollars. Heavy rain fell over the area.

The U. S. weather bureau today reported showers and thunderstorms from the upper Mississippi Valley southward to the Ohio Valley and southwestward into Missouri and eastern Kansas and Nebraska. It was generally fair in most other parts of the country.

## GOP 'Smear Campaign' Is Denied by Sen. Taft

WASHINGTON, June 26—(AP)—Senator Taft (R-Ohio) declared today it is an "absolute untruth" to say, as President Truman did yesterday, that this country has a bipartisan foreign policy.

Taft, who heads the Senate Republican policy committee, dismissed without a direct reply Mr. Truman's charges in a speech at Tullahoma, Tenn., yesterday that the Republicans are "playing right into the hands of the Russians" by conducting a "smear campaign" against the administration.

But the Ohioan—a possible GOP presidential candidate—disputed Mr. Truman's assertion that "we have had a bipartisan foreign policy in this country since Pearl Harbor" and "I would like to keep it that way."

The president went on to say some Republicans—and he obviously was striking at Taft—"Want us to play Russian roulette with the foreign policy of the United States—and with all of the

chambers of the pistol loaded.

Taft told reporters it is an "absolute untruth" any bipartisan policy exists now.

"The 1948 election so went to

## 3000-mile Walk With Wheelbarrow At End for Woman

LOS ANGELES, June 26—(AP)—More than 3,000 miles and 13 months ago Mrs. Julia Roka King St. Clair started pushing a wheelbarrow toward California.

She's here, She, and her son, Dolphy, aged nine, and a cat, Tabby Puff Arkansas, of dubious age and ancestry, arrived yesterday.

Mrs. St. Clair says she pushed the barrow every step of the way, and that son Dolphy hooped it, too. The cat, which hooked on in Arkansas, rode in luxury.

Mrs. St. Clair says she and Dolphy started from Jacksonville, Fla., May 13, 1950, averaged about 300 miles a month until they hit California this month and began taking it in easy stages. They slept in farmhouses, railroad section houses, garages, any place handy.

## Color Television Goes Commercial

NEW YORK, June 26—(AP)—Color—long just a fighting word in the television industry -- has gone commercial.

The Columbia Broadcasting System, whose color system won out over that of RCA-Victor in a battle right up to the supreme court, put an hour-long, star-studded color television show on the air waves yesterday.

And seven sponsors paid \$1,000 each for one-minute announcements via the new medium, while nine other sponsors paid \$275 each just for mention of their products on the show.

But they paid for a limited audience. Color television sets will not be generally available for some months, and even demonstration sets are limited. Ordinary sets need converters to get the color broadcasts in color, and adapters to get them even in black and white.

All the same, CBS estimated that 40,000 persons saw the first sponsored color program in television history.

## Section Hand Injured When Hit by Car

Eighteen B&O freight cars were derailed Monday afternoon near Edgefield, about 14 miles northwest of Washington C. H., and section hands working along the railroad narrowly escaped being crushed in the jumbled pile-up.

A defective wheel on a steel hopper car is believed to have been responsible for the wreck.

The derailment occurred at a point where section men were working on the track. One of the men, Kenneth Riley, sustained a badly injured foot when he was pinned to the ground by one of the hopper cars, which struck him as he was fleeing for his life near the fence along the railroad. He was treated at Memorial Hospital.

The other section men, including Samuel Salt and Clark Salt, both of Milledgeville, escaped by running when they saw the steel hopper cars begin piling up. All the train crew of the eastbound freight escaped injury.

Most of the wrecked cars were empty coal cars. They were piled up indiscriminately along the tracks.

Over 200 feet of track was torn up, and damage was said to be extensive.

Two wreckers, one from Dayton and the other from Chillicothe, were summoned to the scene, and the big hooks started the task of removing the tangled cars.

Wrecking crews and augmented section crews worked until 5 o'clock Tuesday morning clearing up the wreckage and restoring the track for use.

Investigation as to the cause of the wreck was hampered by the condition of the first cars involved in the derailment.

It was the worst railroad wreck in the county in many years.

## Six-month Marriage Gets \$52,500 Alimony

CLEVELAND, June 26—(AP)—The divorced wife and former secretary of James W. Baxter, 68, of Minerva, O. (Stark County) has been granted alimony of \$52,500.

The amount was awarded yesterday to Mrs. Katherine M. Baxter, 43, by Common Pleas Judge Frank J. Merrick after a long fight in the courts. The two lived together only six months.

## Youths Held for Bizarre Abduction

ARLINGTON, Va., June 26—(AP)—A 19-year-old bride of ten days was abducted from her bed early today by two gunmen who, she told police, took her to a scenic spot 10 miles away and attacked her.

Mrs. James Hotchkiss said after the alleged attacks she was driven back near her ground-floor apartment and dumped out of the car. Records indicate she is the daughter of a socially prominent Winnetka, Ill., family.

She was found by Lieut. W. Lynn Smith of the Arlington po-

lice, who had her taken to Arlington Hospital.

There she told doctors each man had attacked her twice.

Less than an hour later police picked up John Robert Polk, 19, of Arlington, and charged him with kidnapping.

Police described Polk as a man long known to them for what they called a series of minor charges. They said he admitted both he and his companion attacked the young bride.

Shortly afterwards, William Robert Payne, 19, of Bethesda, Md., was picked up by Fairfax County police and also charged with kidnapping.

## Korea Fighting Is Stepped Up by Reds at Front

Allies Cautious About Accepting Malik Truce Bid

By OLEN CLEMENTS

TOKYO, June 26—(AP)—Gen. Matthew B. Ridgway said today he didn't know what was happening to cease-fire proposals "but things look better than ever."

The Allied commander made the statement on a flying visit to South Korean President Syngman Rhee.

The war flared anew, fanned by new Chinese fighting spirit on the ground and aggressiveness in the air. Red planes twice struck at U. S. B-29 Superfort bombers and engaged in two battles with American Sabre jets. One Red MIG-15 was shot down.

Communists fought so stubbornly on the western flank of the erratic 100-mile front one officer said "indications are the Chinese are preparing for an offensive."

Ridgway bore a bulging briefcase when he called on the Korean president. Of the Russian peace bid, endorsed by the Chinese radio, Ridgway said:

"I would want an iron clad agreement. I am not willing to take a bill of goods."

He also visited the front. He said it was just one of his usual trips, "had no connection with anything regarding a cease-fire."

No Let Up in War

Before he returned, a memorandum came out of his Tokyo headquarters raising official doubts about the latest Communist cease-fire proposal. It questioned the suggestion as a Russian "political move" that might give the enemy (Please turn to Page Two)

## Pictures in Mail 21 Years Returned

MIAMI, Fla., June 26—(AP)—The package of fish pictures Bernhard Stein mailed to Herbert Young in Chicago 21 years ago came back yesterday—still undelivered.

Postmaster Samuel R. Valliere said marks on the envelope indicated the Chicago Post Office couldn't find Young.

Stein was a guest at the McAllister Hotel in Miami when he sent the pictures north in 1930.

Where they have been for the past 21 years is a mystery. Now the post office can't find Stein.

## Policeman's Shirt Ripped Off Getting Woman in Jail Here

Never underestimate a woman's ferocity!

City police today know the full meaning of this statement today after tangling with a human cyclone—41-year-old Mrs. Dorothy Marie Abrams of Washington C. H.—on Court Street Monday afternoon.

It was again hapless Patrolman

## Mysterious Explosions Have 'Em Guessing in Two South Ohio Cities

COLUMBUS, June 26—(AP)—A mysterious, untraceable explosion which shook Columbus shortly before 2 P. M. (EST) yesterday left both experts and ordinary folk doing some guessing today.

Reports of a similar blast, described as a "big boom" and "an awful racket" in Cincinnati, 107 miles to the southwest, clouded the picture. That explosion, also felt across the Ohio River in Kentucky, came at about the same time as the Columbus blast.

No one offered an airtight explanation of the cause of the blasts. Some people thought they knew the answer, a diving, supersonic jet plane would make such a noise, they said. In April, 1950, the air force said its jets were to blame for explosions heard about Dayton.

Jet pilots flying at high speeds are likely to cause thunderclap sounds when they nose their planes out of dives.

A year ago, many Daytonians reported feeling a breeze, as if from an electric fan, at the same time they heard the blasts. Yesterday, some Columbus men said they felt a wind press their trousers to their legs after the explosion.

A service station attendant said the wind nearly blew him off his chair. Two workmen were knocked off a platform and one man said he thought his car had blown a tire.

Yesterday, however, there apparently was no jet diving—at least none came from Wright-Patterson air force base in Dayton. A spokesman there said pilots have been instructed to avoid high speed dives near occupied areas.

Police and fire department switchboards in Columbus, Cincinnati, and the Kentucky towns of Ludlow and Bromley were swamped with calls from anxious residents. The answer they gave inquirers apparently held true today:

No one knows for sure what caused the noise.

## Dope Peddling Story Bared by Boy Addict

WASHINGTON, June 26—(AP)—A 17-year-old boy, who fell victim to narcotics, and a social worker today told Senate crime investigators a grim story of dope peddlers preying on school children in New York City.

The youth, whose name was withheld, related he dropped his studies to earn money to buy "the stuff" and stole, too, to satisfy his craving.

Social worker James R. Dumpson told the senators of drug peddlers standing in doorways and lounging against school walls, waiting their chance to "pass the goods to girls as they go into schools."

He said they have offered drugs to children as young as nine years old.

Hearing Televised

The testimony of the boy at televised hearings dramatized an earlier warning from a U. S. public health service official that "we're faced with an epidemic" of drug addiction among teenagers.

## MacArthur Ouster Inquiry All over Except the Shouting

WASHINGTON, June 26—(AP)—The stormy Senate inquiry into the ouster of Gen. Douglas MacArthur appears ended, but debate continued almost as hot as ever today over who was right—President Truman or MacArthur.

Here is an example of the sharp division in the Senate armed services and foreign relations committees which conducted the 42-day investigation:

Senator McMahon (D-Conn): "The MacArthur-ites have lost their case."

Senator Brewster (R-Maine): "The record of the hearings pretty completely devastates the Truman Administration's case."

The indications are some of the other 24 members of the inquiry panel will line up with McMahon, some with Brewster, while others probably will take position somewhere in between.

The lengthy investigation—it started May 3—came yesterday to what most members regard as a permanent halt so far as oral testimony is concerned.

Chairman Russell (D-Ga.) said he wasn't foreclosing the possibility of other witnesses being called, but he added he doubts they will be.

The joint committee will meet tomorrow or Thursday to discuss plans for reports on the investigation and to arrange for possible submission of written statements from some persons who did not testify.

The committee's last scheduled witness, the 13th, was Maj. Gen. Emmett (Rosie) O'Donnell, whose testimony brought the voluminous record to a total of approximately 2,045,000 words.

## Russia Supports Malik's Speech; Door Still Open

Successful End Of War Possible, Acheson Believes

WASHINGTON, June 26—(AP)—Secretary of State Acheson said today withdrawal of Communist forces behind the 38th Parallel in Korea could be considered "a successful conclusion of the conflict."

He told the House foreign affairs committee the United States military aim in Korea is "to repel aggression and restore peace and security to the area."

"If this aggression is stopped, and with guarantees that it will not be resumed, then you will have repelled aggression and restored peace and security in the area."

SKEPTICISM GROWS

UNITED NATIONS, N. Y., June 26—(AP)—The United States showed increasing skepticism toward the Russian cease-fire proposal today as Secretary General Trygve Lie hurried home from Europe to coordinate plans for UN consideration of the Malik proposals.

State Department officials questioned whether the Soviet Union's Jacob Malik had not come up merely with a political proposal designed to improve the military position of the North Korean and Chinese forces. This view became known in a memorandum distributed at supreme headquarters in Tokyo. The memorandum distributed at supreme headquarters in Tokyo. The memorandum expressed doubt whether Malik had made his approach in good faith.

Malik proposed Saturday the "belligerents" in Korea discuss a cease-fire and mutual withdrawal from the 38th Parallel. He mentioned no conditions, but yesterday the Chinese Communists, backing Malik's proposal, brought up the old questions of a seat for Red China in the UN and the fate of Formosa.

Lie interrupted his Norwegian vacation to fly here. Asked what he thought of the chances of peace, he said "that's what I'm going to

(Please turn to Page Twelve)

## Disaster Is Feared In Iran Oil Seizure

WASHINGTON, June 26—(AP)—Secretary of State Acheson said today there is every indication the Iranian oil situation is "moving rapidly along the road to disaster."

Acheson expressed that gloomy view while testifying before the House foreign affairs committee in support of the administration's proposed \$8,500,000,000 foreign aid program.

BRITISH CRUISER

LONDON, June 26—(AP)—Britain today ordered the cruiser Mauritius to "proceed forthwith" to the vicinity of Abadan, the Iranian oil port where 27 tankers are caught in a jam in a dispute over payments for oil.

British Foreign Secretary Herbert Morrison, announcing the action in the House of Commons, said the British-owned Anglo-Iranian oil company has ordered all its tankers to leave Abadan immediately.

JOBS IN DANGER

TEHRAN, June 26—(AP)—Premier Mohammed Mossadeq in a message broadcast today appealed to British oil technicians to stay on the job for the Iranian government. But he failed to say whether he would withdraw a drastic anti-sabotage bill carrying possible death penalties.

British Ambassador Sir Francis Shepherd yesterday protested the bill, introduced in parliament last week by Mossadeq. Sir Francis said its passage would result in wholesale resignations of the 3,000 British employees of the Anglo-Iranian Oil Company. He said they would be fearful of being accused of sabotage in event of accidents.

## Veterans Find County-owned Housing Units Here Are Cheap

Fayette County still owns six cottages, erected in 1947 under the emergency housing act and which are occupied by World War II veterans, who pay \$20 a month rental for the little houses.

Four of these houses are located on Rawling Street and two on Broadway.

They were erected under the direction of the county commissioners with a state grant and small amount of county funds, under the emergency housing act of 1946.

The county received a \$18,595.16 grant from surplus sales tax funds, and added \$1,440 to the amount in order to complete the five houses, each of which has four rooms and bath.

The houses were built on contract, and nothing was added that was not necessary to provide ordinary living facilities.

Since that time the \$20 a month rental has gone back into improving the properties until the first of this year. Since that time the money has been turned in to the general fund of the county treasury.

Part of the money from rentals went into gas furnaces, cement walks and other improvements about the premises, so that the houses are now much better equipped than when they were first built.

Veterans who were without houses were given first choice as renters and four of the original families still occupy the houses.

One house has had three occupants and the other two.

Houses of the same size are rent-

## Mainly About People

Mrs. Sabra Jenks of Bloomingburg entered Memorial Hospital Monday for observation and treatment.

E. Parker Doty of Highland was admitted to Memorial Hospital Tuesday morning for emergency surgery.

Miss Lois Ervin Jeffersonville, Route 1, underwent a tonsillectomy in Memorial Hospital, Tuesday morning.

John Wayne Jenkins, son of Mr. and Mrs. Herbert W. Jenkins of Wilmington, underwent surgery Tuesday morning in Memorial Hospital.

Mrs. James W. Perdue and infant daughter were released from Memorial Hospital, Monday and returned to their home in Sabina.

Mrs. Joseph Burgle and infant son were discharged from Memorial Hospital and returned to their home in Wilmington Monday.

Isaac Stewart of Bloomingburg is a patient in Memorial Hospital for observation and treatment. He was admitted Monday afternoon.

Mrs. Glenn Cardiff and infant daughter, were discharged from Memorial Hospital and returned to their home 336 West Court Street.

Mrs. James Wilson and infant son, were discharged from Memorial Hospital and returned to their home 534 East Elm Street, Monday.

Mrs. Albert Friant, a patient in Memorial Hospital for observation and treatment was released Monday and returned to her home 113 Water Street.

Mrs. Wayne E. Cline and infant daughter, were discharged from Memorial Hospital Monday and returned to their home 534 East Elm Street.

Joe Lux, son of Mr. and Mrs. C. R. Lux of New Holland, was admitted to Memorial Hospital Monday evening for surgery Tuesday morning.

Mrs. Samuel Lower was released from Memorial Hospital Monday and returned to her home in Jeffersonville. She is recuperating after surgery.

Clarence Mitchell was discharged from Memorial Hospital Monday and returned to his home in Sabina after several days treatment from injuries suffered in a traffic accident.

Charles M. Clifton, Sr., was returned Monday from Mt. Carmel Hospital, Columbus, to his home on the Good Hope-Greenfield Rd.

## Fighting in Korea

(Continued from Page One)

There was no cessation of firing on the fronts, ranging from the 38th Parallel to 20 miles north of it. But there was no noteworthy change in battle lines.

Bayonet fighting raged in the rolling hills. Fire bombing planes swooped in close to the lines and blasted Chinese attackers.

For the 131st consecutive day UN warships bombarded Wonsan, east coast port and transport center.

Reds mustered a force strong enough for a major attack north of Inje on the east-central front.

The Reds also smashed into Allied lines northeast of Kumwha on the central front. Doughboys withdrew under cover of a heavy artillery barrage after a bitter seven-hour battle through the early morning hours.

Peiping radio had barely finished a long broadcast saying the Chinese people were behind the cease-fire move advanced by Russia's UN Delegate Jacob Malik when Communists slammed anew into Allied outposts.

### Allies Are Cautious

And as fighting sharpened in Korea general headquarters in Tokyo issued a memorandum saying Washington officials looked with caution on Malik's proposal.

"Responsible officials in Washington were fearful that the cease fire part of Malik's proposal might have been a cover for military advantage," the memorandum said. "If, for instance, the Malik proposal were accepted and UN forces withdrew from Parallel 38, it raises the military question whether such a move would be just a shift in battle lines to place the enemy in a better position militarily."

Allies are operating as much as 20 miles north of the 38th Parallel, dividing line between Red North and Republican South Korea.

"There is always the danger of a counterattack and the breaking of an armistice," the memorandum noted.

From U. S. 8th army headquarters, AP Correspondent Nate Powlitzky reported the Chinese were more battle-minded than in many days. All across the 100-mile front, he reported, it was a story of stubborn Red resistance to UN patrols, or, in some places, of Communist attack.

AP Correspondent Frank King flew across the entire battlefield during the day. He said Communists held high ground near Kumwha, southeastern anchor of the Reds' former "iron triangle."

after being a patient there for three weeks following major surgery.

Jacob Saunders of Jeffersonville who has been a patient in White Cross Hospital, Columbus for the past three weeks was brought to Memorial Hospital Monday afternoon in the Alvin G. Little ambulance for further treatment.

Capt. Paul E. Campbell recently received notice of his promotion from Captain to Major in the army air force. Major Campbell is stationed at the Southern Air Force Procurement District in Fort Worth, Texas. Mrs. Campbell is the former Lela Backenstoe, daughter of Mr. and Mrs. Hughie Backenstoe, a bride of last month.

Barton Montgomery, son of County Agent and Mrs. W. W. Montgomery, returned to New York City, Saturday after spending a three weeks furlough from the Headquarters of the Quartermaster Procurement Agency of the U. S. Army, at his home here.

## Bloomingsburg Lions Install McFadden as New President

EDGAR McFADDEN, newly installed president of Bloomingsburg Lions Club, receives gavel and congratulations from Howard Foster, past president, and Don Gibson, zone chairman of 13-C. (Record-Herald Photo)

Edgar McFadden was installed as the new president of the Bloomingsburg Lions Club at its regular meeting Monday night in the Town Hall.

It was the first meeting the Lions Club had in the town hall, its new meeting place. Previously, the Lions Club has met in the basement of the Bloomingsburg High School.

Other officers installed were as follows: G. H. Biddle, first vice president; Clyde Cramer, second vice president; Glenn Davis Sr., third vice president; Charles Andrews and Gordon Cowdery, directors; Otis Core, Lion tamer; Jess Schleicher, tail twister; Joe Elliott, secretary, and Ira Scott, treasurer.

The installing officer was Don Gibson, zone chairman of 13-C. Gibson also gave a report on the Lions state convention.

The past president, Howard Foster, secretary, Brooks G. Trueblood, and treasurer, Delbert Looker, were presented pins by the incoming officers in these posts.

Other out-going officers not already mentioned were D. E. Mossbarger, second vice president; Arthur Engle and Glenn Davis Sr., directors; Clyde Cramer, tail twister and Russell Davis, Lion tamer.

Announcement was made that the Lions Club will charter Troop No. 133 and take it under the club's wing. A troop committee of 20 men, including the scoutmaster, have been chosen.

New members inducted Monday night were Donald Denen, Charles McCoy, Allen D. umford, and Wayne Anderson.

Key awards were presented to Harold McConaughy and Gordon Lynch for bringing in two members during the past two years.

A daughter, weighing seven pounds eleven ounces, was born in Memorial Hospital at 3:50 P. M. Monday to Mr. and Mrs. Albert Sockman, Jeffersonville, Route 1.

Mr. and Mrs. Carl Merritt, Route 5, are the parents of a seven pound ten ounce daughter, born in Memorial Hospital at 12:10 P. M. Monday.

A daughter, weighing seven pounds eleven ounces, was born in Memorial Hospital at 3:50 P. M. Monday to Mr. and Mrs. Albert Sockman, Jeffersonville, Route 1.

Mr. and Mrs. William Goble of the Greenfield Road, are announcing the birth of a ten pound four ounce son, at their home 4:55 A. M. Tuesday. Mr. and Mrs. Harold Glass also of the Greenfield Road and Mr. and Mrs. O. B. Goble of near Jamestown, are the grandparents.

Five-day extended Ohio weather forecast.

Temperatures will average 4-8 degrees above normal. Normal maximum 81. Normal minimum 60. Slow rising trend in temperatures becoming quite warm and humid by Friday. Precipitation will average near one-half inch as scattered thundershowers almost any day in period.

America's smallest deer, found in the lower keys near Key West, Fla., weigh only 35 pounds and measure less than two feet high at the shoulder. According to the National Geographic Society, there are only 32 of these deer left.

## The World Today

BY JAMES MARLOW  
WASHINGTON, June 26—(AP)—The Korean War, which started a year ago today and caught us flat-footedly unprepared, has had four main results:

1. This country won't soon again be caught quite so helplessly flat-footed for we have begun to arm and prepare in a big way.
2. By going into Korea, which showed our willingness to fight to stop Communism, this country undoubtedly upset the Communist timetable of conquest in Asia and elsewhere.
3. The western Allies have been welded closer by the realization that Communism, unless stopped, would chew up the unprepared part of the world. It spurred them all into re-arming.
4. This country revealed to the world as badly split and confused on how to stop Communism and what to do next.

Korea was a test. If we had stood by idly there, it would have green-lighted Communism to gobble up the rest of Asia and move perhaps in the Middle East and Europe.

We had developed the kind of megalomaniac thinking which had led to disaster for the French. Our megalomaniac was the atom bomb. We had developed an almost child-like and mystical belief in it as the perfect defense.

The Korean outbreak quickly showed us how pitifully unprepared we were to fight a real war, even against North Koreans who lacked bombs and atom bombs.

At the time of the Korean outbreak, the western Allies were linked together in the Atlantic pact which then was hardly more than a noble promise; a promise to go to one another's help if any member nation was attacked.

Actually, it was a paper promise. Korea showed these Allies they were in pretty sad shape to defend anyone, including themselves. Now they've all started to rearm and turn their paper alliance into a military one.

Because it takes a lot of time to set up the machinery for turning out arms, this country and its Allies are far from fully equipped. In a few months, though, the weapons should start moving from the factories.

History may show Russia lost the long cold war with the west by choosing to make a minor test in Korea—which has given the Allies 12 months to get ready—instead of sweeping across Europe while it still was pitifully unready.

But this country has not gone through the Korean experience without great pain: the loss of American lives and one of the most searing spiritual convulsions in the nation's history.

In the Russian purge of the mid-1930's the old Bolsheviks startled the world by getting up in open court, searching their souls, castigating themselves, revealing their thoughts.

In the past year, openly before the world and undoubtedly to the benefit of the Russians, we have exposed our thinking in the disputes over what we should do and what we did wrong. It has been a purge of the American spirit.

Even while we were fighting in Korea we went through months of self-analysis, not unmixed with politics, to decide whether we would really stand beside our European Allies by sending them troops, instead of arms only.

That was the famous troops-for-Europe debate, started by former President Hoover who tried to persuade the country that we should make the U. S. a Gibraltar, using the oceans as a moat, and keep our ground troops at home.

Then, after a debate that showed a wide split in American thinking on this, the Senate approved the decision to send troops, although with qualifications. Almost at once, without batting an eye or apparently feeling any inconsistency, we plunged into the other extreme in our zeal for self-examination. This was after the firing of General MacArthur.

He won a lot of support by urging an even fiercer war in Asia on the Chinese, even if it meant getting into world war with Russia, which he thought it wouldn't. The followings which Hoover and MacArthur both accepted, although with profoundly different views on fighting Communism, plus the intense opposition both

## Iran Oil Seizure Effects Could Be Felt in U. S.

### American Oilmen Now Making Plans To Meet Situation

By SAM DAWSON  
NEW YORK, June 26—(AP)—Oilmen are preparing to shift the world oil traffic routes—if need arises—to neutralize as quickly as possible the threatened loss to the west of Iran's oil flow. They have already asked the U. S. Justice department to clear the plan of any anti-trust charge.

Most agree if political upheaval in Iran turns off the 700,000-barrel-a-day oil spigot there, the immediate effect on the distribution of oil around the world could be—unless American companies act quickly and jointly:

1. Possible return of gas rationing to England.
2. Serious shortages in Indian and Pakistan, and to lesser degree in South Africa and Australia -- all served by Iran.
3. Perhaps even a temporary shortage here, if we rushed to the aid of England's navy and air force, now fueled out of the Abadan refinery and the Persian oil fields to a considerable extent. Rationing here might follow, but only if nationalist unrest spreads in the Middle East.

But most oilmen insist it would be only a matter of time until:

1. U. S. and Venezuelan oil production could be increased, and tanker routes reshuffled to get oil and its products to western Europe.
2. Production could be stepped up impressively in other Middle Eastern oil fields -- providing the political unrest doesn't spread from Iran.
3. New British and continental oil refineries -- being built in large part by Marshall plan dollars -- would fill most of western Europe's needs for oil products out of the crude oil being shipped there from the western hemisphere and the Middle East.

Refinery in England  
A new refinery in England, privately built by Esso Petroleum Co., goes into operation in a few weeks and will have greater capacity than the amount of oil products Britain has been getting from Abadan.

Oil is an international business, anyway, with American companies heavily involved, and oil tanker routes criss-crossing the seven seas.

Joseph E. Pogue, Chase national oil economist, figures American oil companies increased their investment in foreign properties by \$227 million last year to a gross investment abroad of \$2.4 billion. Production from their foreign wells averaged nearly 3.7 million barrels of oil a day, a gain of 6.5 percent over 1949.

men met, showed the world that after 12 months of Korea the American people as a whole, are confused about the future.

Board and Room

By Gene Ahern

The United States imported 114,000 barrels of oil a day from the Middle East last year, 13 percent more than the year before. Presumably if England loses Iranian oil, the U. S. oil from the Middle East could be diverted to her quickly -- but at the expense of east coast American refineries.

The Middle East can step up its oil production rapidly from now on, oilmen figure -- always supposing there is no more political interference.

American Interests

American-owned companies in Saudi-Arabia average 695,121 barrels a day in April. They have plans under way to step this up to more than 800,000 barrels a day. Kuwait oil fields, operated by Anglo-Iranian Oil Co. and Gulf Oil Corp. (American) produce 400,000 barrels a day, but this can be expanded. Kuwait, however, lies right at the doorstep of the turbulent Persian fields. Iraq by next year will be sending 235,000 more barrels of oil a day through a new pipeline outlet to the Mediterranean.

Americans have built a \$200 billion 30-inch pipeline across Arabia to carry their Saudi-Arabian oil to the Mediterranean. A similar pipeline is being built from Iraq, which already sends 160,000 barrels a day through two smaller existing lines.

Oil is an international business, anyway, with American companies heavily involved, and oil tanker routes criss-crossing the seven seas.

men met, showed the world that after 12 months of Korea the American people as a whole, are confused about the future.

The fish that couldn't get away from you... can blame this local angler, too.

The fish doesn't know it, but he can blame this Texas Eastern operator for having had a big part in supplying the tackle that landed him. On the job, the operator who helps run the natural gas pipe lines in your county keeps gas flowing to scores of industries that make many essential commodities. Off the job, he and most of his fellow employees take to fishing as their favorite hobby—relaxing from the job with fishing tackle they helped to make.

## The Things To Which People Are Entitled

If the principles of this great republic are based on Christianity—as they are; if freedom is preferable to slavery—as it must be; if our leaders—local, state and national—are the servants of the people and not their masters; then the people are entitled to demand of them honesty in their personal conduct at all times.

Loyalty to the people and to the principles of decency and constitutional government should be expected of officials and faithfulness of their trust—not mere absence of illegality in their conduct of governmental affairs.

Above all, the people deserve an example of competence in the handling of our public and official affairs, domestic and foreign, also frugality in the handling of the people's money. Only thus are the people inspired to be competent, frugal and honest in the handling of their own affairs.

The responsibility of leaders is to furnish leadership. Our so-called Asiatic "policy" of indecision and confusion is being paid for in blood in Korea and tears at home. We, in our pain, engaged in "Operation Killer", are wreaking a bloody vengeance on little people who have had the misfortune to fall victims of a criminal leadership which has forced them into slavery.

Where is the voice of a Lincoln or a Woodrow Wilson to proclaim the principles of right and justice to oppressed peoples and to arouse them to throw off their yoke?

Can it be that America has fallen so low in the esteem of mankind that no one can hear what we say about ideals and principles because of seeing the way we act about them here?

The concept that we have to buy friends to keep them from siding with Russia is a concept from the lowest strata of "practical politics". Our opulence gives evidence of earning only the envy of the nations to whom we throw large sums of money; the dislike if not hatred of those to whom we do

not; and, inevitably, the denunciation of the beneficiaries when we stop giving.

Jefferson's "Equal rights for all; special privilege for none" has been thrown out the window. "Special privileges for all" gets more votes.

A nervous and worried public is sick of the scrambling for power of little men in high office; of the influence peddlers; of the traitors and fellow travelers; of whitewashing of friend and party; of the appointment to office of men without merit but with pull; of gamblers and crooks, politicians and fixers. The stench rises as high as an atom bomb's smoke.

What we need is for men, big or little, to make selfless decisions, and to vote always: "for the good of our country", whether it leaves one in or out of office, or makes one rich or poor.

People only become great by following a great leadership. The time is NOW.

### Lame on Geography

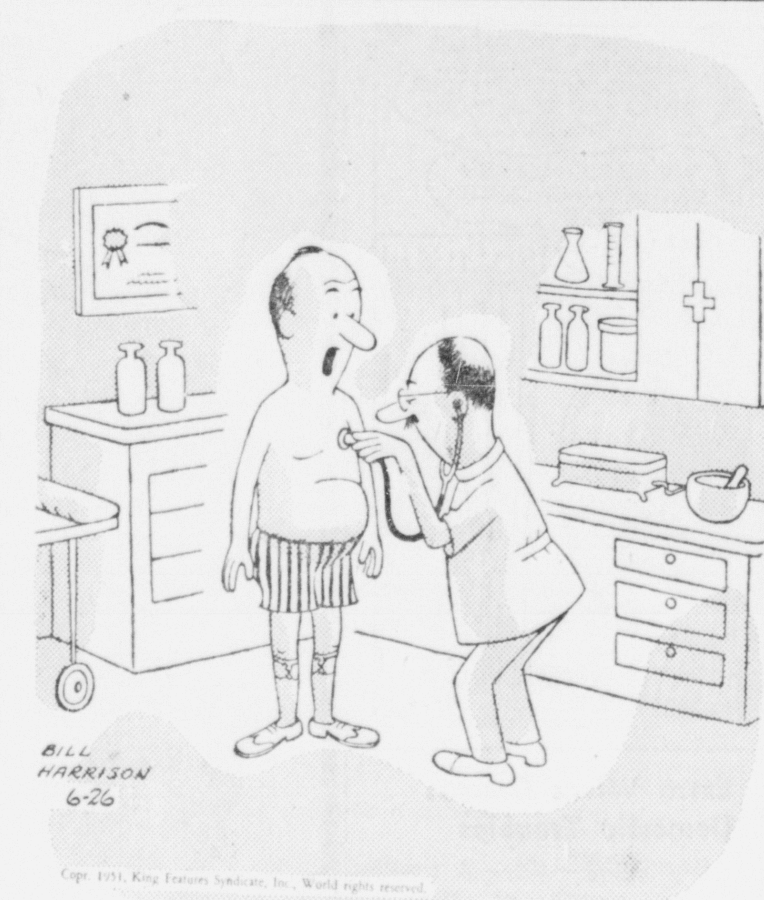

American people are deficient in knowledge of the geography of their own country, a survey conducted by the New York Times indicates.

Seeking those who presumably were the best informed on the subject, approximately 4,700 college students were given a geography test, most questions concerning population, location of various cities and states, and other facts usually learned in elementary grades.

It was revealed that geography courses are available in only five percent of colleges contacted. Only one student in 20 could name all the states bordering on the Atlantic. Only one percent could name as many as five imports to the United States.

The nation's population figures were listed in a range of 5,000,000 to 500,000,000. In world geography the ignorance shown was still more appalling.

## Laff-A-Day

"Do you mean by 'sound as a dollar' that I'm half sick?"

## Diet and Health

By HERMAN N. BUNDESEN

The role of fluorine in preventing tooth decay, discovered a few years ago, has been confirmed by extensive studies, both in this country and in other parts of the world.

Some of these investigations were made in communities where this substance occurs naturally in the drinking water. These findings were so impressive that in 1943 it was decided to see what could be accomplished by adding fluorine to the water supply.

### Sodium Fluoride

Two cities of approximately the same size and with the same general conditions, such as climate, were picked for the experiment. Sodium fluoride was added to the drinking water supply of the one, while the other went on as it had always done with its fluoride-free water.

The proportion of cavities in permanent teeth had decreased from 21 per hundred before fluoride was added to the water to 14.8 per hundred at the time of the most recent survey. In the city not receiving the sodium fluoride, the rate remained 21.3 per hundred. This represents a saving of 6.5 permanent teeth per hundred in the city using the sodium fluoride in the drinking water. The greatest benefit from the fluoride-treated water occurred in the younger age groups.

### Careful Observation

These tests show that the addition of sodium fluoride to the water supply may decrease the number of cavities in the people of a community. We have never obtained evidence that naturally-occurring fluoride has any bad effects. Nevertheless, careful observations of children receiving this drinking water should continue. Many studies along this line are now being undertaken by some research groups. When they are completed, they will, in all probability, show that the addition of sodium fluoride to the water supply can be safely undertaken as a routine matter by every community.

QUESTIONS AND ANSWERS  
E. T.: Since the birth of my baby I have trouble holding my water. Can you tell me what causes this?  
Answer: This is usually caused by a weakness in the wall of the vagina that holds up the bladder. It may have been caused by childbirth. However, a careful study by the physician is needed to determine the exact cause before the proper treatment can be instituted.

## Extra Care Used For Air Cargoes

LONDON (AP)—The world's international police are being turned on the job of safeguarding airline cargoes.

Announcing this, Sir William P. Hildred, director general of the International Air Transport Association declared: "Pilferage of airline cargoes is extremely rare... international air cargo has become established as the safest

## Grab Bag

### The Answer, Quick

1. What is a minister without portfolio?
2. Was Wild Bill Hickok an outlaw?
3. Which is larger in area, Japan or the British Isles?
4. When does a town become a city?
5. What country has the youngest navy in the world?

### Your Future

You should fare better if you do not allow yourself to be pushed around, but hold fast to your ideals. Initiative and originality should work, so take the lead in some pioneering work. Today's child presumably will be successful if extreme love of pleasure and extravagance are controlled.

### Watch Your Language

EXECUTOR — (E K-see-K U ter or ex-EK-ku-ter)—noun; one who executes something; the person appointed by a testator to execute his will. Origin: Anglo-French—Executor, from Latin.

### How'd You Make Out

1. A member of the government, usually a cabinet minister, who has no department assigned to him.
2. No, he was a United States marshal.
3. Japan.
4. When its population reaches 2,500.
5. Israel.

That amount was 15 percent higher than the 1950 figure, he said.

Rudy Miller, Cuyahoga County drive chairman, said greater Cleveland's contribution totaled \$310,790, which was \$7,282 less than in 1950.

The first railroad fatality occurred in England in 1830 at the opening of the Liverpool to Manchester line. The victim was run over by the locomotive. A witness complained it was a "dear price to pay for the folly of seven hundred people going fifteen miles an hour."

## One Year after: Price of Korea

By Hal Boyle

NEW YORK. —(AP)—What is the price of Korea?

Has the battle there been worthwhile to the United States a year later?

What have we gained? World respect—and time to arm ourselves. And today we have a mighty field army.

What have we lost? Well, more than 70,000 Americans have been hurt or are missing. Along the way, some of those 70,000 casualties insisted on going right back up into the fighting, and only in the last few weeks have been rotated home.

The statistics of this engagement that began as a United Nations "police action" are on the staggering side.

We claim we killed or wounded more than a million of the enemy. They don't say. But the ambassador to our South Korean ally says the war so far has cost the lives of 3,000,000 of his people and made 10,000,000 homeless. All of Korea, North and South, has about 30,000,000 people.

From a strictly humanitarian standpoint it therefore appears that we have given more death, misery and confusion to the South Koreans than we have liberty. And we have. That is only fair to say.

But we have kept the pattern of freedom pretty clear in the United States and elsewhere. And under the United Nations flag a solid right block has been thrown into Soviet Russia's attempt to take Asia by force.

History may yet say that his attempt to grab all of Korea by pure muscle was one of Joe Stalin's greatest mistakes. It is there he abandoned promises for attempted performance.

When a fellow has nothing better to deliver than a glamorous promise, he should remain a rainbow man. He should never commit himself. Stalin does well as long as he holds out the symbol of a full rice bowl to hungry lands; he does less well when he has to find a way to actually fill the bowl and serve it.

His mistake, he should have kept on saying what he would do, and kept on not trying to do what he said he would do. A promise to do something is better propaganda in our present world than a real effort to improve a situation. Sad it is; so it is.

Few are left of the two American infantry companies who first engaged and slowed down the North Korean army south of Seoul. It was a spearpoint of 500 men against a mob of 250,000 or more.

They had to take the casualties because there was no one else who could break up the Red tide. They got more blame than credit at the time, but the pass-

age of 12 months has shown they did well—considering.

Those first few who held the Korean Dyke until it could be built stronger included a number of teen-age kids who had joined the army for security. The breaking up of their dreams may be a small part of the price of Korea, but it is a big part to the boys who lost those dreams.

In a dozen months a magnificent U. S.—UN army has been built up able to stay in Korea as long as it wants to, no matter how many more troops the Chinese may want to waste against it. The story of the Korean campaign has been this: The more they throw against us the less we have to retreat. As the enemy has massed, we have muscled.

Let none say that Korea was easy. The weather, the filth, the fortitude of the enemy, the fact no end to the campaign was visible—these things made Korea difficult and memorable.

Today we hold a new "Chinese wall" of our own, a steel shell curtain against the iron curtain. Russia's bid by force has been blocked by force.

But the real price of Korea, the fourth costliest war America has fought, is the same old expensive bill paid before—the cost of unpreparedness.

And how can you ever pay back the loyalty of ready men who died to save an unready nation?

Sokolsky of any commodity without the slightest regard to consumers' necessities.

Comparing the western powers with the Soviet satellites, these

## The Record-Herald

TELEPHONE  
Business—2583 News—9761 Society—4291

are the figures:

Western Powers	
	Tons
United States	96,696,000
United Kingdom	18,078,000
Western Germany	13,101,000
France	9,108,000
Japan	4,970,000
Belgium	3,863,000
Canada	3,270,000
Luxemburg	2,560,000
Italy	2,503,000
Saar	1,925,000
Australia	1,519,000

Soviet States	
	Tons
T. S. S. R.	26,500,000
Czechoslovakia	2,850,000
Poland	2,525,000
Hungary	875,000
Australia	1,017,000

If to this total is added the 1,071,000 tons of Sweden, a country that Soviet Russia can seize quickly, the total can be raised to 34,838,000.

Suppose Russia were able to take all the steel production on the continent of Europe, it would come to 68,802,000 tons, still considerably under Anglo-American production. This, however, presupposes that no European and no American plants would be bombed out of existence. Actually, it must be assumed that the whole of the western European industry would be bombed out of existence as soon as war started and that some of our plants would suffer. The steel production of the

Anglo-American group alone amounts to:

	Tons
United States	96,696,000
United Kingdom	18,078,000
Canada	3,270,000
Australia	1,519,000

No matter how you look at these figures, the United States has, during the past six years of the cold war, produced roughly 50 percent of the total steel production of the world which is 194,154,000 tons.

When it comes to availability of the raw material, iron ore, 75 percent of the known, usable supply is held by five countries, the United States, France, Sweden, Great Britain and Soviet Russia, with the United States far in the lead, and with nearby Canada fast moving into the field. The Mesabi Range of Minnesota and Michigan iron mountains have produced year after year between one-fifth and one-fourth of the world's supply. The Birmingham, Alabama, ore-field is very important. New fields are being developed in Chile, Venezuela and Brazil.

The importance of this data lies in the single fact that the United States can continue to hold its lead as a world power, in spite of the astonishing errors of its public-makers, as long as it is able to continue to the lead in steel. A national steel policy is as essential as a national diplomatic policy. (Copyright, 1951, King Features Syndicate, Inc.)

FOUND HALF STARVED in a thickly wooded section near New Jersey's Lake Hopatcong, three-year-old Richard Dingman is brought to Newark's Dover General Hospital by firemen John Clark and Howard Milliken. The child, missing for four days, was located by a pet fox hound owned by railroad conductor William Convent after bloodhounds had been unable to pick up the trail of lost boy. ## Reception Honors The Rev. Moons Sunday Evening

Nearly one-hundred members of the Jeffersonville Methodist Church and guests were present to attend a welcome to Rev. Forrest Moon and Mrs. Moon Sunday evening at eight o'clock when he was extended warm greetings on his return to the pastorate of the church sanctuary and opened with a prayer.

Mrs. Moon was presented with a corsage and other ladies received bouquets of sweetpeas. The program under the direction of Mrs. Wayne Dowler was held in the church sanctuary and opened with a group of hymns by the congregation with Miss Louise Fultz at the organ.

A vocal solo "My God and I" by Oliver Vannorsdall accompanied by Miss Shirley Sharrett at the piano, was followed with two organ solos by Miss Sharrett, "Autumn" and "The Old Rugged Cross."

Mr. Frank Alexander gave the welcome address and gracious remarks.

## Gradale Members Are Entertained At Simons Home

Officers of the Gradale Sorority were hostesses on Monday evening when Miss Helen Simons, mentor of the sorority, extended the hospitality of the spacious Simons home for a delightful evening party when forty-six members and pledges of the sorority were honor guests.

A clever circus theme was used and the recreation room was the perfect setting for the event.

As each guest arrived they were given clown name tags and bogus money.

The pledges for rough initiation, were dressed in hilarious garb and each read an original poem.

A balloon bursting contest furnished a round of amusement with a number of prizes awarded.

In a brief business session the primus, Mrs. John Ohnewehr announced that the members would have charge of the Coca-Cola concession at the Fayette County Fair which is an annual project.

Installation of new officers and also new members will be held in Fellowship Hall at Grace Methodist Church, Monday, July 9, with a banquet at 6:30 P. M. preceding the ceremonies.

The circus theme was further carried out in the serving of lemonade, popcorn and Eskimo pies.

Hostesses assisting Miss Simons were Mrs. John E. Rhoads, Mrs. Charles Simpson, Mrs. Robert Creamer, Mrs. William C. Allen, Jr., Mrs. Jack White, Mrs. Joseph Bryan and Mrs. John Ohnewehr.

Mrs. Robert Allen of New Orleans, La., a former member, was included as a guest.

## Four Hostesses Entertain at Layette Shower

Mrs. Ray West, Mrs. George Phillips, Mrs. Maryon Mark and Mrs. Howard Mace entertained at a layette shower at the home of Mrs. West honoring Mrs. Robert Creamer.

Two interesting contests using baby's names were greatly enjoyed by the guests and awards in these went to Mrs. Otis Hess and Mrs. William Stoughton.

Mrs. Creamer opened her gifts in the dining room which had been arranged around a clever center piece of two storks with a bouquet of baby's breath.

Two large bouquets of blue delphinium and pink roses carried out a pink and blue theme.

Later the guests were served a delicious sandwich and dessert course buffet and Mrs. George Phillips presided over the punch bowl.

Invited guests included: Mrs. Norris Highfield, Mrs. Robert Minshall, Mrs. Ray Mershon, Mrs. Charlene Malone, Mrs. William Marshall, Mrs. Jesse Allen, Mrs. Charles Thorpe, Mrs. William Buskirk, Mrs. George Inskeep, Mrs. Margaret Colwell, Mrs. William Markley, Mrs. Michael Helfrich, Mrs. Marshall Morr, Mrs. Vernon after being the Sunday overnight guest of Mr. and Mrs. S. A. Murry, coming especially to attend their golden wedding celebration on Sunday.

## Fiftieth Wedding Anniversary Observed

Mr. and Mrs. Sherman A. Murry

Pictured looking at their guest book are Mr. and Mrs. Sherman A. Murry, who on Sunday celebrated their golden wedding anniversary between the hours of two and five and seven and nine. They received over one hundred fifty guests.

The home was radiant with lovely flowers, in gorgeous arrangements of roses, snapdragons and carnations in gold color, some of which were gifts.

Mrs. Murry received the guests in dark blue sheer dress with a corsage of yellow rose buds and Mr. Murry had a yellow rose boutonniere.

Beautiful gifts were on display from the many friends of Mr. and Mrs. Murry and dainty tea delicacies in individual cakes and fruit punch were served from a beautifully appointed table centered with an exquisite cluster of yellow roses, snapdragons and carnations, flanked with yellow

tapers. Miss Myrtle McCoy, Mrs. Condon Campbell presided over the punch bowl, and Mrs. Martin A. Hughey, Mrs. Ben McCoy and Mrs. M. J. Gusty assisted in the dining room. Mrs. Glenn Pine and Mrs. Glenn Rodgers assisted in receiving the guests with Mrs. Earl Murray and Mrs. James Garlinger in charge of the register.

Guests calling to extend congratulations to Mr. and Mrs. Murry were from Jamestown, Good Hope, Jeffersonville, Columbus, Mt. Vernon, Bellefontaine, London, Frankfort, Chillicothe, as well as those from Washington C. H.

## Man-made River in California Waters 624,000 Acres of Land

Directors of irrigation district inspect Friant-Kern canal pump.

By BOB J. BURANDT  
Central Press Correspondent  
BAKERSFIELD, Cal.—Life-giving, beautiful, precious water—the real gold of the west—will soon be coursing the entire length of America's newest river.

While not as long as the broad Ohio or Ol' Man Mississippi, it is potentially just as important in many respects. Certainly this new river is far safer; it will never cause any disastrous floods since it can be turned off or on like your kitchen sink water tap.

It is the long-awaited Friant-Kern canal, a \$60 million man-made river, stretching from Madra county down over the sun-baked floor of California's lower San Joaquin valley to Kern county.

Starting from a lofty perch behind Friant dam in the Sierra Nevada foothills 25 miles northeast of Fresno, the water will flow for 153 miles to its terminus just outside Bakersfield—only 110 miles by highway from Los Angeles.

The canal, which has been under construction since 1945, is the final and longest man-built waterway of the mammoth Central Valley Project. Part of the canal is already in operation, with deliveries of water being made to a number of irrigation districts.

ALL WORK is under control and supervision of the U. S. Bureau of Reclamation. Its contractors are now putting finishing touches on the Bakersfield end of the immense concrete "river-bed."

The top of the canal's cement lining is 80 feet wide, tapering to a width of 36 feet, and the flow of water in it will be 15 feet deep—enough to float a good-sized boat.

Genuine river water will flow in the new canal-river. It is San Joaquin river water, flowing from Millerton lake which has backed up behind giant Friant dam.

The dam itself is the fourth largest in the world, being 320 feet high, and 3,488 feet long on top. Millerton lake reservoir, with a capacity of 500,000 acre feet of water, is 15 miles long, covers 5,900 acres and has 43 miles of shoreline.

Much of this water formerly flowed down through San Francisco bay into the Pacific and was wasted. However, now it will help grow hundreds of millions of dollars worth of crops—everything from fruit to nuts, cotton, vegetables and grain.

ALSO, IT will assist in checking the rapidly falling underground "water table" which has threatened the existence of many farmers in this area.

The canal has a capacity of 4,600 cubic feet per second, or more than two million gallons a minute. Water will be furnished for new and supplemental irrigation of 624,000 acres on the east side of the San Joaquin valley, in Fresno, Tulare and Kern counties.

In addition to the basic cost of the canal borne by the Reclamation Bureau, \$37 million is being spent for distribution systems by the numerous irrigation districts which will use the water. Under negotiated contracts, they will pay \$3.50 per acre-foot for Class I (guaranteed supply) water.

Class II water, which will not be available every year and is delivered in varying amounts depending on run-off from the San Joaquin river, is priced at \$1.50 an acre-foot. The districts buy the water and distribute it to their farmer-members.

Through the miracle of modern American reclamation methods, engineering wizardry and technical know-how, water is delivered to the farmers' lands as conveniently as city-dwellers get their morning milk.

can in New York said the bodies of all 40 victims were removed from the wreck yesterday and buried at the Lutheran mission of Sonoyeh).

### Relics of Aachen To Be Shown Soon for First Time Since 1937

Aachen's 11 centuries old Kaiser Cathedral which houses relics.

By LESLIE P. EICHEL  
Central Press Correspondent

**NEW YORK**—Catholic dignitaries from the United States as well as other parts of the world plan to go on a pilgrimage to Aachen, Germany, this summer. There, from July 7 to 22, holy relics will be worshipped for the first time since 1937, in the Kaiser Cathedral.

The relics, among the most revered of the Catholic church, include the gown which the Virgin Mary wore on the Holy Night, the swaddling clothes of the Christ Child, the loin cloth of the crucified Christ, and the cloth on which John the Baptist was beheaded.

For seven centuries these relics have been put on display every seven years for multitudes from all over the world. In 1937 more than 800,000 pilgrims saw them. More than a million are expected this year.

The relics were brought to Aachen by Charles the Great during his long reign over Germany as emperor of the Holy Roman Empire. They are enshrined in a magnificent creation of Thirteenth Century silversmiths' art, called "Mary's Shrine," in the cathedral's treasure vault.

AT THE beginning of each pilgrimage, the relics are removed from the shrine for exhibit in the cathedral proper.

Aachen itself is historic. It was the site of a Roman settlement in early days. The name derives from

Appollo Granus, who was worshipped in connection with the sulphur baths in the immediate vicinity. The medicinal quality of those baths was recognized by the Romans, and they are in use to this day.

Of course, Aachen is famous for its memories of Charlemagne, who built his favorite palace there. He was buried there about 875 A. D. His body then was exhumed in 1000 A. D.

IT WAS found seated in a chair so magnificent in its royal trappings that the body was removed from it and the chair then was used for coronations for centuries.

The cathedral dates from approximately 830 A. D. It was damaged by fire several times, then virtually destroyed by Norman raiders, but was restored in 983 A. D. It stood thereafter with little change until World War II, when it was badly damaged.

On entering it, one obtains an immediate impression of its Roman antecedents, for in the center there is a large slab marking the spot of a Roman temple that stood on the site.

The cathedral is unique as to its architecture—being in two distinct styles, oriental and occidental. Students of architecture say it was modeled after the Church of Ravenna, which owes its form to Byzantine and Syrian originals. The architect is unknown.

Aachen is on the Rhine close to Bonn and Cologne, and with them is a popular objective of tourists.

### Soldier Now in Korea Wants To Finish Job

U. S. TENTH CORPS, Korea, June 26 —(AP)—Sgt. Edward J. Hester, Hamilton, Ohio, turned down a chance to go home next month under new regulations for enlisted reservists.

"This job here isn't done yet," he said, "and I'm going to stick it out until it's over with."

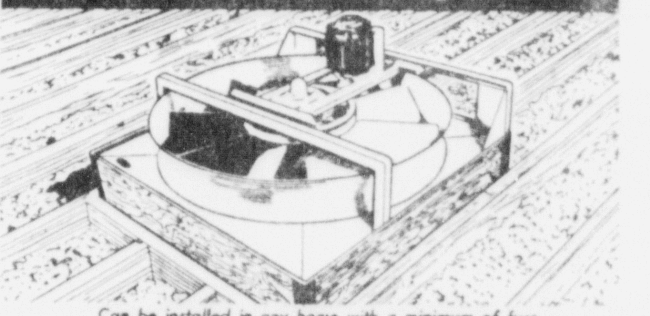

The average U. S. potato yield from 1919 to 1938 was 110 bushels per acre. By 1950, the average yield had risen to 238 bushels per acre.

Enjoy Cool, Comfortable Breezes in Your Home, Night and Day

Summer heat, collected in your attic, continues to blanket your home long past midnight. Exhaust this hot, stale air—bring in cool, invigorating breezes with low-cost Coolair Breeze Conditioning. You sleep better, eat better, live better in a house that's kept comfortably cool—with a breeze. Ask about the Coolair Unit for your home. Terms available.

### Man Hit by Softball Dies in Ambulance

CLEVELAND, June 26—(AP)—It happened in the seventh inning of a sandlot soft ball game. It didn't seem so serious at the time.

The batter drove the ball along the first base line. Umpire Charles Morris ruled it foul. Jeffrey (Jeff) Edwards, 42, manager of the Newburgh Height Poultry Twelve, ran towards the plate, apparently to get the decision.

At that point, the ball was thrown in by the right fielder. The ball bounced, said Morris, and

struck Edwards in the back of the neck.

Edwards fell to the ground. The game with the Jablonski Mayors continued. Edwards' team won, 9 to 7.

By the time the game ended, Edwards was enroute to a hospital. He was dead before he got there.

"IT'S SO EASY TO PLACE A WANT AD."

### One County Shows Gain in Sales Tax

Only one county in this immediate area showed increased sales tax sales during the week ending June 9, and that was Greene County.

All of the others, including Fayette, showed substantial declines, compared with sales for the same

period in 1950.

Fayette's sales totaled \$3,791.90, compared with \$8,095.03 the same week a year ago. Part of the drop was due to heavy purchases made by many local business men prior to the drop in discount from three to two percent.

India's great Bengal famine of 1943 caused 3,000,000 to 4,000,000 deaths, directly by malnutrition and indirectly by disease.

### First Yank Killed In Korea Is Home

BECKLEY, W. Va., June 26—(AP)—The first American foot soldier killed in Korea lies in a fresh American grave today — anniversary of the state of the Korean War.

He was Kenneth Shadrick, 19, who grew up in Skin Fork, W.

Va., before his family moved to Beckley. He was cut down last July 5 by a machine gun blast from a Red tank as he fired his bazooka from a rain-soaked Korean graveyard position near So-jong.

His body completed its journey half way around the world and arrived by train in Prince, W. Va., last Wednesday.

Yesterday Kenneth got a military funeral.

### Perry Peppy Farmers Talk About Projects

The Perry Peppy Farmers 4-H Club discussed gardens and cattle at its last meeting held at the New Martinsburg Township Hall on Friday. Members of the club worked on their record books. The next meeting will be held July 6 at the township hall.

## It's Up to Giants To Halt Dodgers

### Beanball Battles Hot Side Issue

By JOE REICHLER  
(By The Associated Press)  
Back in 1934 Bill Terry, then manager of New York's World Champion Giants, was asked what he thought of the dreary Brooklyn Dodgers.

"Are they still in the league?" he retorted.

Now 17 years later, another Giants manager, Leo Durocher, will attempt to prove the Dodgers are still in the league.

Pacing the pack by six full games, the Dodgers appear to be in a league all by themselves. They are threatening to make a shambles of the pennant race in the National circuit. The responsibility of halting the Brooklyn runaway rests squarely on the Giants.

The bitter interborough rivalry opens a vital three-game series tonight at the Polo Grounds. The general feeling is the Giants must win at least two out of three to convince themselves, along with the rest of the circuit, the chase is not hopeless. The rival class in another three-game set in Brooklyn next week.

Although the Giants won nine and lost four in the west, they failed to gain an inch on the Dodgers. They did, however, climb from fourth to second to clearly mark themselves as Brooklyn's strongest challenger.

THERE IS A SIDE issue to the Dodger-Giant battles. That is the threat of beanball hostilities. The two teams have not met since April 30 when some of the Brooklyn hitters accused pitcher Sal Maglie of throwing at them. A brush between Maglie and Jackie Robinson almost erupted into serious trouble.

Nobody knows what to expect. "I don't know yet what I'm going to do," League President Ford Frick said. "I might issue instructions to managers Durocher and Drennon. I haven't decided yet."

Drennon has Preacher Roe (10-0), his unbeaten southpaw, ready for tonight. He'll be opposed by Maglie (11-3).

The Dodgers may be without the services of Gil Hodges, the slugging first baseman who leads the majors with 24 home runs. Hodges injured his left instep in Sunday's doubleheader in Pittsburgh and did not see action last night in Brooklyn's exhibition game against the New York Yankees.

In contrast to the National, the American League appears set for a blistering pennant race with Chicago's White Sox, New York's Yankees, Cleveland's Indians and Boston's Red Sox all figuring prominently.

Their once-comfortable 4½ cushion deflated to one game, the White Sox hope to regain some lost ground in the next two weeks.

They open against Detroit tonight at home.

## Oakmont Course Tough Test for PGA

OAKMONT, Pa., June 26—(AP)—A golfer who has strong legs and an accurate eye for long putts should win the 1951 Professional Golfers Association championship.

That's the consensus of the experts who have tested the hilly fairways and the harrowed and harrowing traps at the Oakmont Country Club in preparation for the 32nd PGA Tournament, which starts tomorrow.

The program calls for the field of about 140 to compete in a two-day 36-hole qualifying test. The 63 survivors, plus defending champion Chandler Harper of Portsmouth, Va., will go into five days of match play, calling for 36 holes a day. Harper qualifies automatically but will compete for the Alex Smith Memorial trophy and the \$250 prize that goes to the qualifying medalist.

On Friday, the first day of match play, two 18-hole "pudden" rounds will be played. After that each match will be at 36 holes, leading up to the final next Tuesday.

## Ohio Amateurs State Golf Battle

YOUNGSTOWN, June 26—(AP)—The cream of the state's Simon Pure golfers began tramping the 6,800-yard Tippecanoe Country Club course today on a six-day grind leading to the Ohio amateur title.

After the 36 holes of qualifying play today and tomorrow, the field of 114 will be cut to 64 for 18 holes of match play Thursday. Two rounds Friday and two more Saturday will reduce the field to two finalists who will play 36 holes Sunday to determine the winner.

## Collegiate Golf Paced by Texan

### Sensational Round Turned in by Ex-GI

COLUMBUS, June 26—(AP)—Defending Champion North Texas State and a 32-year-old GI set a blistering pace today as the National Collegiate Golf Tournament went into its second and final day of qualifying over Ohio State University's sprawling, course.

The unusually rugged foursome from the Lone Star state carried a 294 total into today's firing, three better than its nearest rivals, Ohio State, North Carolina and the University of Detroit. They each had 297.

The team title is awarded on the basis of the four low scores in the 36-hole qualifier.

But the real sensation of opening day yesterday was Sam Kocsis, 32-year-old University of Detroit business administration senior. He slashed five strokes off par for the 6915-yard course with a 67 to establish a new all-time competitive course record and definitely improve his chances of winning a title once held by his brother, Chuck.

Kocsis, VETERAN of three years service in the air force and father of three children, coupled a three-under par 33 going out, despite missing five-foot putts on No. 5 and No. 9, and a two-under 34 on the incoming section of his phenomenal round that was one better than the competitive course record of 68 set by Howard Baker of Ohio State in 1945 and two better than his nearest rival yesterday, Don January of North Texas State with a 35-34-69, good for second place.

Leading Ohio scorers yesterday: Tom Niepote, Ohio State, 36-40-70.  
Dow Finsterwald, Ohio University, 37-36-73.

Other Ohio scores included: Paul Krummel, Cincinnati, 40-40-80.

## VFW Trounced By Rocking Chairs

The VFW softballers blew a two-run lead over the Rocking Chair Inn team in the fourth inning of their game Monday evening on the Wilson Field diamond and went down to a 16 to 6 defeat. The game was called at the end of the fifth inning on the 10-run lead rule.

The Vets got a run in the first, another in the second and three in the third while the Innsmen were getting one in the first and two in the third.

When the Innsmen came up in the top of the fifth though they boomed out four hits for five runs. They collected seven more runs in the next inning on five hits to put the game on ice.

Ten miscues committed by the Vets, in the field, aided the Rockers to victory.

## Pennington Bakers Beat Armbrusters

Pennington's Bakers just kept plugging away, slowly but surely, to beat the Armbrusters, 9 to 4, in Monday night's Recreation League game at Wilson Field.

The two teams were tied at 3- all after three innings, but from there on the Bakers gradually pulled out in front.

It was one of those games with good balance: one of those in which the ultimate outcome was always in doubt. A home run by Miltstead was the highlight of the hitting.

Play in the field was fast and clean despite the five errors.

## VFW Trounced By Rocking Chairs

The VFW softballers blew a two-run lead over the Rocking Chair Inn team in the fourth inning of their game Monday evening on the Wilson Field diamond and went down to a 16 to 6 defeat. The game was called at the end of the fifth inning on the 10-run lead rule.

The Vets got a run in the first, another in the second and three in the third while the Innsmen were getting one in the first and two in the third.

When the Innsmen came up in the top of the fifth though they boomed out four hits for five runs. They collected seven more runs in the next inning on five hits to put the game on ice.

Ten miscues committed by the Vets, in the field, aided the Rockers to victory.

Bogus Bill Passers Nabbed in Cleveland

CLEVELAND, June 26—(AP)—Police held five men and two women today and hunted for the "brains" of a gang which they said had been passing counterfeit \$10 bills.

The 30 bills confiscated carried the name of the Dallas Federal Reserve Bank.

William J. Savasky, 30, the owner of Bill's Hardware Store, called police and helped trail two men and a woman who bought a canister from him with one phony bill.

Information police got from them led to the arrest of the other three men and another woman, who had fled to Sandusky, O. All gave Cleveland addresses.

Both women were waitresses. None of those arrested was named.

Police said they had identified the man sought as the wholesaler of the bad bills.

Taft Making Plans Like a Candidate

WASHINGTON, June 26—(AP)—If Senator Robert A. Taft (R-Ohio) isn't running for president, he's walking mighty fast.

Taft, who says he won't make up his mind until late this summer about seeking the Republican presidential nomination, already has a five-month speaking schedule roughed in.

Unless he changes tactics, those five months will be devoted to slashing attacks on the administration's foreign and domestic policies.

By December, seven months before his party's nominating convention, Taft's friends think he may have solidified a position as the Republican's most vigorous opponent of President Truman's programs.

In doing so, the Ohioian will have sniffed the political winds in such pivotal states as Wisconsin, Indiana, Maryland, Massachusetts, North Dakota, Missouri and North Carolina.

New Chrysler Cars Get Price Boost

WASHINGTON, June 26—(AP)—The Chrysler Corporation was authorized today to increase retail prices on 11 of its new design models equipped with V-8 engines.

The Office of Price Stabilization said similar increases will be granted other automobile manufacturers who bring out models differing materially in design and structure from cars they previously produced.

The increases in retail list prices for Chrysler cover five models of that company's New Yorker series, four of the Imperial series and two of the Crown Imperial series.

This marks the first time the price agency has set dollars and cents ceilings at retail for automobiles.

Beaver Colony Found In South California

NEWHALL, Calif. — (AP) — Southern California has beavers, too, and less than 50 miles from Los Angeles. A thriving colony of the aquatic animals, generally

Scott's Scrap Book

By Gene Ahern

found in the northern states, was discovered recently high in Solec Canyon east of here.

Several dams and pools and a large beaver population were found there by a party from the

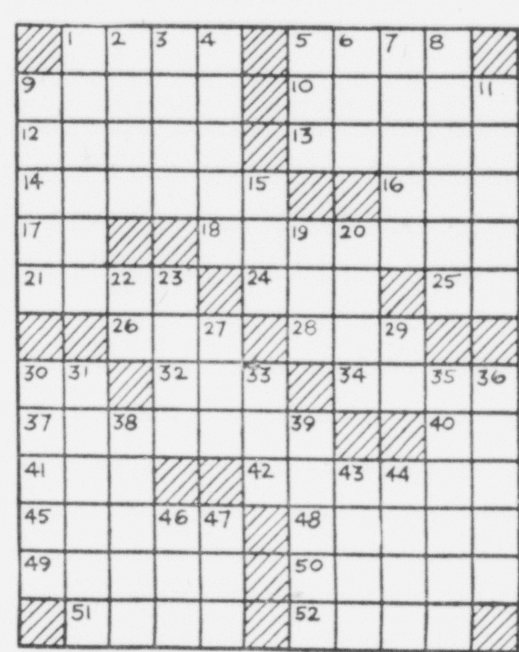

Los Angeles County Fire Department making an annual inspection of the remote area.

Where the beavers came from and how they got there has the fire department puzzled.

## Farmers Here Get Report on Price Rollbacks

Ohio Farm Bureau  
Opposes Continued  
Government Controls

Although Fayette County farmers are in the midst of a very busy season, there were a number of Farm Bureau leaders and others gathered in the Farm Bureau auditorium Monday night to hear reports on the agricultural situation and the fight against a rollback of farm prices.

Those present heard reports from legislative representatives of many Ohio groups who went to Washington, D. C. on June 14 to meet with members of Congress to give senators and representatives a "grass roots" report on sentiment of farmers, industrial groups and many others.

The group going to Washington reported to members of Congress on a poll taken by the Ohio Farm Bureau.

### Farmers Oppose Controls

Legislative spokesmen for the Ohio Farm Bureau Federation reported that Ohio farmers are strongly opposed to continuance of price controls. First returns from a poll conducted throughout the state show 71 percent want price controls repealed, that 91 percent want no subsidy payments on food, and that 96 percent feel that if price controls are continued, ceilings should be set at not less than parity.

Those reporting here at Monday night's meeting were: Mrs. Arthur McCoy of New Vienna (Clinton County); Austin Harbage, Plain City (Madison County); and D. R. Stanfield, legislation agent, Ohio Farm Bureau Federation.

The policy statement on price and wage controls adopted by Ohio agriculture and industry was read to those present. The policy statement was agreed to by the following statewide groups; Ohio Farm Bureau Federation, Ohio State Grange, Producers Livestock Cooperative Association, Ohio Council of Farmer Cooperatives, Cincinnati Livestock Producers Association, Ohio Chamber of Commerce, Ohio Manufacturers Association, Federated Egg and Poultry Sales, Ohio Wool Growers Cooperative Association, Miami Valley Milk Producers Association and Central Ohio Milk Producers Association.

## Allies Are Baffled

(Continued from Page One)  
find out." He conferred with British and Canadian officials in London. Lie is due in New York tomorrow.

Britain announced it was beginning talks in Washington with 15 other governments which have forces in Korea. The idea is to map some sort of joint approach to the Communist nations to establish exactly what they have in mind in the way of a cease-fire plan. Britain has diplomatic representation in Peiping and may seek Red China's views directly on behalf of the Allies.

Nasrallah Entezam of Iran, president of the UN general assembly, gave no indication whether it would be called into session on the Korean issue. He presided today at a routine session honoring President Calo Blaza Lasso of Ecuador. Before the session, Entezam said he had not had a chance to confer with Malik, who was reported ill.

### Russia Backs Truce

In Moscow, Pravda printed an editorial saying the Soviet people are convinced that "there exist all possibilities for a peaceful settlement of the Korean question." It pictured President Truman as supporting the Malik plan. Actually President Truman said there must be a "real settlement" that ends the aggression and brings an

assurance of security to the Korean people.

The South Koreans, whose republic was founded under UN sponsorship, officially want no cease-fire that does not reunite the entire Korean peninsula. Gen. Ridgway visited President Syngman Rhee of South Korea today. Ridgway carried a set of instructions, supposedly from the U. S. government, but the nature of these was not made public.

In addressing the UN assembly at Flushing Meadows today, the Ecuadorian president urged the Malik proposal be explored thoroughly "to create a tranquil atmosphere that permits appreciation of the problems according to their own merits."

"Now is the hour to make a new and serious effort" to end the war, Gato Plaza said.

In Washington Chairman Connally (D-Tex.) of the Senate foreign relations committee said the Malik proposal should be given careful consideration, and not be rejected simply as a piece of propaganda.

There have been hints in Washington the U. S. may feel out Moscow through Ambassador Alan G. Kirk.

## Acheson Urges Foreign Aid

WASHINGTON, June 26—(AP)—Secretary of State Acheson, urging Congress to vote a new \$8,500,000,000 foreign aid program, said today Soviet expansion by "encroachment" has got to be stopped.

Acheson said enlightened self-interest "requires us to make sure that we have strong and reliable friends and Allies." The huge foreign economic and arms aid program, he said, is essential to the security of the United States.

As Acheson spoke, before the House foreign affairs committee, speculation mounted in Congress over the possibility that a cease-fire in Korea might be in the making. Cease-fire talk followed suggestions made in a radio address Saturday by Jacob A. Malik, chief Soviet delegate to the United Nations.

But Acheson's prepared statement made no direct reference to Malik's proposal that fighting cease and hostile forces withdraw from the 38th Parallel.

## George Hamilton Dies at 85 Years

Funeral services for George E. Hamilton, 85, son of Dr. and Mrs. E. C. Hamilton who formerly resided in Washington C. H. for many years, were held at the Neely Funeral Home in Xenia, Tuesday at 1 P. M., followed by burial in Enon Cemetery.

Mr. Hamilton was an employee of the Xenia Post Office for years, and had many friends in this city. He sustained a fall at his home Thursday, and was taken to McClellan Hospital in Xenia, where he passed away. He retired from the Post Office in 1933, and had been in failing health for three years.

Surviving are his widow; a daughter, Mrs. Leona Fulton, near Yellow Springs; two half brothers, Stoddard of Indianapolis and Carl of Chicago and four grandchildren. Mr. and Mrs. Stoddard Hamilton and Mr. and Mrs. Carl Hamilton were in Washington C. H. over Monday night, enroute to attend the funeral services Tuesday.

The Lincoln Memorial was built at a cost of \$2,940,000.

## Clyde Cameron Takes Own Life

Friends here of Clyde Cameron, 71-year-old agricultural feed salesman in Greenfield were shocked today to learn that he took his own life Monday.

Dr. A. M. Brenner of Hillsboro, deputy Highland County coroner, gave a verdict of suicide by strangulation. He placed the time of death at between 1 and 2 A. M. Monday.

The body was discovered by Earl Clayton in his garage at 120 South Street in Greenfield.

Cameron used a length of 1-4 inch rope, hooking it over a raft. He then looped it around his neck and stepped off a box and book at a combined height of 10 1-4 inches.

Race fans and harness horse drivers in Washington C. H. knew Cameron from his infrequent visits to the race barns at the Fayette County Fairgrounds.

## Labor Puts Pressure To Extend Controls

WASHINGTON, June 26—(AP)—Senators angled for a compromise today in the steaming fight over government price-wage controls and price rollbacks, but no solution was in sight.

And the CIO threatened to boycott the stabilization program again unless Congress approves a program more to its liking than the one now embodied in Senate and House bills.

Present authority for economic controls expires at midnight Saturday.

Senate leaders of both parties conceded it may be necessary for Congress to adopt a resolution simply extending the present controls law a month or so, to provide more time for action on the extension bill. But they expressed distaste for such an expedient.

The CIO threat to walk out of the stabilization effort was voiced late yesterday by Emil Rieve, chairman of the big labor organization's committee on economic policy and a member of the Wage Stabilization Board.

The program now before Congress, Rieve told newsmen, insures "nothing except the profits of business and industry."

## Fire Still Rages In National Forest

TRUTH OR CONSEQUENCES, N. M., June 26—(AP)—More than 30,000 acres of timber lay in ashes today as a fire in the Gila National Forest raged uncontrolled for the fifth day.

At least 1,200 men were on the fire lines attempting to draw them tight around the 60 to 70 mile front. Most of the lines must be dug by hand since the fire is in the nearly impassable Black Mountain region 45 miles southeast of Truth or Consequences.

### Jeff Jolly Homemakers

Members of the Jeff Jolly Homemakers held a short business meeting Friday at the home of Sue McDonald. Sara Sue Davidson conducted the meeting in the absence of Linda McCluskie, president, who was at 4-H Camp at Camp Clifton. The next meeting will be held at 8 o'clock Wednesday night (tonight) at the Legion Hall.

The Corcoran Gallery of Art, Washington D. C., was founded in 1869 and is devoted primarily to American Art.

## Mrs. Campbell Succumbs in Texas

Mrs. Anna Campbell, 83, a native of Washington C. H., died suddenly at 1 A. M. Tuesday in the hospital at Hillsboro, Tex., where she had lived for 63 years, according to word received by her sister, Mrs. George Cheney, here.

Mrs. Cheney said she had learned that her sister had suffered a stroke last Saturday, but that her condition had not been considered critical.

Mrs. Campbell -- Miss Anna Reichert before her marriage -- had many friends here where she had visited nearly every year.

Her husband, B. W. Campbell, died in 1938.

Mrs. Campbell is survived by a son, Carl, of Los Angeles; a daughter, Miss Agnes Campbell, at home and an adopted daughter, Miss Hettie Campbell also at home.

Funeral services and interment are to be Wednesday in Hillsboro.

## Thoburn Landrum Dies At Home in Oak Hill

Funeral services for Thoburn Landrum, 53, brother of O. W. Landrum, manager of the Cudahy Packing Co. here, who died at his home in Oak Hill (Jackson County) Saturday evening, are to be held at the Kuhn Funeral Home there at 2 P. M. Wednesday.

Mr. Landrum's death came unexpectedly from a heart ailment with which he had suffered for some time, his brother here said. Mr. and Mrs. O. W. Landrum are going to Oak Hill for the services and interment in the cemetery there.

### Speeder Arrested

Jay Bouman, Cincinnati, for driving 70 miles on the CCC Highway, was picked up by a state patrolman, and gave \$15 bond for appearance in police court.

### JOHN FOSTER DIES

GREENFIELD—Services will be held Wednesday at 2 P. M., in the Boyer Funeral Home, Waverly, for John Foster, 57, head of the Greenfield Welding School, who died of a heart ailment.

## Man Arrested Here For Perry County

Upon instructions from the Perry County sheriff, Police Chief Vaiden Long picked up Leo Wright and is holding him for the Perry County officials. The charge was not announced.

## Safety Discussed At 4-H Club Meet

Safety was the theme of the Clover Belles 4-H Club meeting at the home of Janis Dennen.

Members of the club answered roll call by giving a safety rule. Phyllis Barney, safety chairman, gave a talk and demonstration on safety.

Plans for a square dance, to be held in conjunction with the Bloomingburg club, were discussed during the business meeting.

Betty Barton, president of the club, was selected the healthiest member of the club. She will represent the club at a health contest to be held by all the 4-H clubs in the county.

Following the meeting the hostess, assisted by her mother, Mrs. Eugene Dennen, served refreshments.

No date has been set for the next meeting as yet.

### DIAMONDS RETURNED

SARDINIA — Diamond rings valued at \$700, stolen from a Mowrytown jewelry store, have been returned by mail, and officers are running down a ring of youthful thieves.

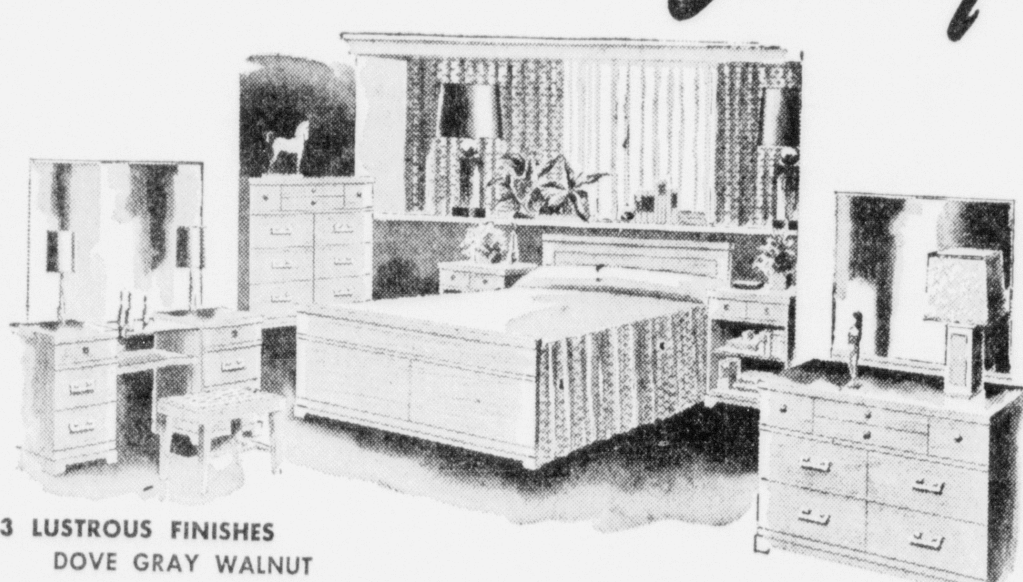

## THE WORM TURNS

Wife-beating cases are common in police courts but at Charleston, S. C., a wife was charged with beating her husband.

---Probably because he took the last piece of PENNINGTON BREAD on the plate.

## Family Back From Germany

Sgt. 1-c Thomas W. Carson, his wife Peggy and daughter Elizabeth Ann, 12, have returned to Fayette County from Stuttgart, Germany, where Sgt. Carson has been stationed. Both Sgt. Carson and his wife are from Washington C. H. She is the former Peggy Speakman.

Mrs. Carson was returned to the states and to the field hospital at Wright-Patterson Air Force Base, in Dayton, where she will undergo observation and treatment.

While she is in the hospital, Sgt. Carson and their daughter are living here in Washington C. H. at 802 East Market Street. Sgt. Carson has been assigned to Ft. Hayes, Columbus.

The Carsons left Stuttgart on June 16, with a stopover at West-over Field, Mass., before coming here. Mrs. Carson flew home on a hospital plane, while Sgt. Carson and Elizabeth Ann returned on an army transport.

Mrs. Carson left this country on December 20, 1950 to join her husband in Germany. He was resident engineer for the Stuttgart military post there and was attached to the post engineers.

## Owner of Seven Caves Summoned

Clyde Galen Chaney, 59, owner and operator of Seven Caves in Highland County, died in Greenfield Hospital following an illness of two years.

He had operated the Seven Caves for 23 years, and lived near Bainbridge.

He was the organizer of the Bainbridge Progressive Association and past president of the George Washington Memorial Highway Association.

He was also a member of the American Legion and Masonic Lodge and saw service in World War I.

Services will be held Thursday at 2 P. M. at the Murry Funeral Home in Greenfield, and interment will be made in Pine Lake Cemetery, LePorte.

## Wayne Wonder Workers Make Plans for Tour

Plans for the coming 4-H Club all-day outing at Cincinnati and a discussion of projects (aprons and dresses) for display at the Fair occupied much of the time at the Monday evening meeting of the Wayne Wonder Workers at Good Hope's Wayne Hall.

Of the dozen members of the club, ten are planning to make the

trip to Cincinnati. That was the same number who attended Camp Clifton last week and reported a "wonderful time" at Monday night's meeting.

Margaret Ann Johnson was named the club's health representative during the business session over which Jean Cupp, the president, presided.

Refreshments were served by Mary Jo and Jackie Lee Hoppes.

The next meeting is to be held at Wayne Hall the evening of July 2 with Nancy and Peggy Sollars as the hostesses.

## Jeff Boy Scouts Plan Swim Party

Plans are being made by the committee for Troop No. 67 of Jeffersonville to have a picnic supper and swimming party next Monday night at the London pool.

All Boy Scouts in Troop No. 67 are asked to meet at 4:30 P. M. Monday to leave for the party.

Meanwhile, members of the troop committee have been contacting various individuals to find someone to assume the active leadership of the troop.

Those present at the meeting of the troop committee at the John L. McKillip home were Charles Seibert, Clyde Rings, Dwight Spangler, O. E. Spengler, Marvin M. DeMent and Ray Graft, field scout executive.

Plans were discussed for summer camping.

BOND IS \$2,500

WILMINGTON — Willie Ray Roberts, 22, is under \$2,500 bond for appearance before the grand jury on a charge of raping a 13-year-old girl.

## Another 'Swance' Set for Friday

The turnout for the first "swance"—a combined swim and dance—at Washington Park swimming pool two weeks ago was good enough to warrant holding another, Fred Pierson, the pool manager said.

So, Pierson announced Tuesday that another "swance" would be held Friday evening from 8:30 to 10:30 o'clock.

Pierson estimated that "between 90 and 100" teen agers got together for the dance after finishing their swimming when the first "swance" was held.

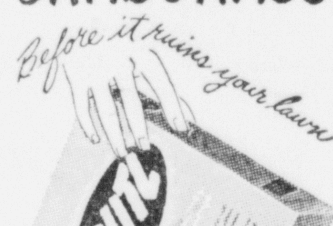

It was emphasized at the start that the affairs are on an experimental basis for the present.

The only extra cost for taking in the "swance" is 25 cents to keep the juke box running. Dancing is under the lights on the concrete apron surrounding the pool.

### DRIVER KILLED

BATAVIA—Dorsey Haas, 42, was killed in a traffic accident when his car left the road and plunged into a creek 40 feet below.
